

TATTOO CARE

RANGE

Skinergy
The Wisdom of Beauty

HAVE A TATTOO OR THINKING OF GETTING ONE?

Then you need a skincare range that's been formulated just for your skin!

Caring for your skin correctly before and after getting a tattoo is important. Dry skin, for instance, can have a negative impact on the appearance of your tattoo.

We know how difficult it is to find skincare products containing natural ingredients that are specifically designed for inked skin - especially for new tattoos when proper skincare is so critical.

That's why we decided to make our own! Combining our years of experience in skincare, and our understanding of the specific needs of tattooed skin, we created Tattoo Care, Skinergy's latest, groundbreaking skincare range for South African skin.

For every type of ink, brand new, not-so-new or your old faithful - we've got a tattoo skincare product for you.

Tattoo Repair Cleanser

Gently cleanses newly inked skin.

Description

A gentle moisturising cream cleanser for your just inked skin. Ensuring maximum healing and protection.

Application

Gently apply the cleanser to your skin. Remove with a damp cloth, being careful not to further traumatise the skin. Use twice daily.

Ingredients

Coco Glucoside - an ultra-gentle cleanser, ideal for sensitive skin

Watermelon Seed Oil - protects and moisturises the skin

Hydrolysed Jojoba Esters - improve barrier function

Chamomile and Calendula Extracts - reduce inflammation

Centella Asiatica - nature's miracle anti-ageing agent for skin

Paullinia Cupana Extracts - boost hydration and protect the skin barrier

Rosemary Extract - reduces swelling through anti-inflammatory properties, soothing new tattooed skin

100 ml

Tattoo Repair Serum

Treats newly inked skin and repairs skin damage.

Description

A nourishing serum with a blend of natural oils and extracts. Created to gently soothe, rejuvenate and protect your freshly inked skin.

Application

Apply to your skin twice daily, after cleansing. Gently massage into your skin until fully absorbed.

Ingredients

Apricot Kernel - improves and increases skin radiance

Watermelon Seed - improve your overall skin appearance

Jojoba - a potent antioxidant that protects against free radicals

Castor Seed Oil - moisturises the skin and acts as humectant

Chamomile and Calendula Extracts - have antiseptic properties to assist with wound healing

Centella Asiatica - heals hypertrophic wounds, enhances collagen production

Methyl-Sulfonyl-Methane (MSM) - replenishes and maintains your skin's collagen

Allantoin - hydrates and soothes your skin

Ginseng and Paullinia Cupana Extracts - stimulate skin regeneration

50 ml

Tattoo Wash

Cleanse tattooed skin while protecting your ink.

Description

A gentle cleansing wash. Specifically formulated to nourish and heal your skin, ensuring maximum protection of your ink.

Application

Gently apply to your skin to cleanse it, twice daily. Wipe off with a damp cloth.

Ingredients

Hydrolysed Jojoba - increase skin hydration

Wheat and Wheatgerm Proteins - hydrate and prevent scarring

Allantoin - reduces irritation and sensitivity

Ginseng and Paullinia Cupana Extract - tones your skin

Brassica Campestris Seed Oil - Antioxidant properties and a rich source of Omega-3 and Omega-6 fatty acids.

200 ml

Tattoo Enhancing Cream

Enhance ink colour and condition during the day.

Description

Boost your ink.

Enhance the colours and condition of your tattoo.

Application

Apply to your skin in the morning, after cleansing. Gently massage into your skin until fully absorbed.

Ingredients

Hydrolysed Jojoba Protein - moisturises and improves skin appearance

Rice Bran Oil - promotes skin micro-circulation

Shea Butter - high concentrations of fatty acids and vitamins

Sodium Hyaluronate - nourishes and maintains you skin's microbiome

Caffeine - protects skin from free radicals

D-Panthenol - promotes the recovery and revitalisation of skin cells

Chenopodium Quinoa Seed Extract - maintains the structural integrity of the skin restoring barrier function

Caesalpinia Spinosa Fruit Pod - protects your skin's restorative barrier function

50 ml / 100 ml

Tattoo Embalming Balm

Enhance ink colour while hydrating your skin at night.

Description

A specially formulated balm to moisturise, soothe and hydrate your skin.

Application

Apply to your skin in the evening, after cleansing. Gently massage into your skin until fully absorbed.

Ingredients

Shea Butter - an anti-inflammatory that supports healing

Coconut Oil - antibacterial, antifungal and antiviral

Castor oil - draws moisture into your skin, keeping it hydrated

Rhus Verniciflua Peel Cera (Berry Wax) - barrier protection for your skin

Helianthus Annuus Seed Oil & Wax - calms compromised skin

Shorea Robusta Resin - protects wounds from infections and speeds up the healing process

Brassica Campestris Seed Oil - provides moisture, vitamins and omega fatty acids to your skin

100 ml

Tattoo SPF 30

For ink-safe sun protection.

Description

A light and easily absorbed SPF to protect your ink, and moisturise and hydrate your skin.

Application

Apply a small amount to the palm of your hand and gently distribute on your tattooed skin. Can be applied before or after applying a moisturiser.

Ingredients

Homosalate - absorbs short-wave UVB rays

Butyl Methoxydibenzoylmethane - absorbs UVA and UVB rays

Octocrylene - an organic ultraviolet (UV) filter which absorbs mainly UVB radiation and short UVA wavelengths

Cetearyl Alcohol - soothes and heals dry skin

50 ml
